*And He gave some [as] apostles, and some [as] prophets, and some [as] evangelists, and some [as] pastors and teachers, for the equipping of the saints for the work of service, to the building up of the body of Christ; until we all attain to the unity of the faith, and of the knowledge of the Son of God, to a mature man, to the measure of the stature which belongs to the fullness of Christ. - Eph 4:11-13*

What a magnificent truth for us to realize and implement! Youth With A Mission (YWAM) is a missionary organization with Christians from all denominations and backgrounds, working together to preach the Gospel and show that love through Christian Service. We have groups from all backgrounds and ministries coming into our YWAM base. Some have medical backgrounds, some construction, and others are here to evangelize. But, we all have the same goal of demonstrating the love of Christ to Interior Alaska. One family came from Indiana in their motorhome, with their five children to help evangelize. They are pictured below in front of fireplace.

We are participating and helping host the 4th Annual International Prophetic Fire Conference and Revival, from June 3-13th at Mountain Movers Church. We are expecting great things and many healed, saved and delivered from bondage.

One of our board members, Chris Paul of Fairbanks, had a recent healing in his body. He was scheduled for an ablation to help control his heart from racing and when they downloaded the information from his

### Prayer Requests:

- Outreaches for 2019
- New Staff Members
- Finances for Base Maintenance and Repair

pacemaker, they discovered that his heart had been keeping a much more stable pace than they had predicted. So, they said to leave it alone. He is praising God for this good news, as in the past, it has made him weak. He has helped us on so many projects, especially with HVAC and plumbing, and we want to continue to believe for complete healing from God. Miracles are starting already and we believe for more, and that only God receives the glory.

We are into our busy time of year and the base already has teams to help us with repairs. Most of these have to be done in the summers. The winters are difficult on buildings. It is possible that we will have a new heating system donated to the main YWAM campus that will take care of heating and hot water at the same time, which is much more efficient than standard electric water heaters—something we always run out of if large groups are staying at the base. We believe that God will speak to peoples hearts both locally and out-of-state to help us get these repairs done. The more efficient we can make the building, the more money can be used for direct ministry. *Thank you so much* for partnering with us through the years and we continue to lift up your prayers as well.

*Co-laborers in Christ,
