*"And no one puts new wine into old wineskins; otherwise the new wine will burst the skins and it will be spilled out, and the skins will be ruined. "But new wine must be put into fresh wineskins. - Luke 5:37-38*

It is always difficult for churches, communities and even individual people to allow the Lord to transform us from where we are to where God wants us to be. We prefer for our habits and schedules to be the same and this even applies to how we relate to God. But, our ways can become idols that we prefer over what God is doing. Every church and christian organization struggled to adapt to the Covid 19 pandemic, and Golden Heart, to this day, is not able to meet in the tribal hall as before. So, they have been having services at Born Again Believers. They have graciously allowed us to even have revival services as well. This week, one of our minsters is an Apache woman named Mary Lee from Arizona. She is quite dynamic and operates in the gifts of the Spirit, especially words of exhortation and prophecy. God sends new people and experiences to help us become that new wineskin for His new wine to be poured into. Methods of ministry may change, but God's purposes to reach the lost and pour at His Spirit on the nations of the earth continue. Below, Mary is teaching and exhorting at our revival meetings this week. We have been going late into the night, but many

**Prayer Requests:**

- Protection and Health for Workers
- Maintenance and Caretakers for YWAM Base

lives are being touched. We all must be sensitive to how God leads us, and be willing to pursue different ministries of outreach, whether in a church, on the street, even in people's homes if persecution arises. We follow Jesus whatever the cost! Below is a picture of Native Women

singing on the KJNP program Village Voice, which takes place every Saturday evening. Radio is a popular way of

communicating since many villages are very isolated during the winter months.

**TESTIMONY:** One of the Native ministers named Brandon, had a brother who had accepted the Lord in 2011, but was in an accident and had actually died in the hospital and experienced hell. He was in darkness and demons surrounded him, tormenting him, telling him he was trapped there. He cried out, "Lord save me." A bright light surrounded him and the demons were afraid and left him, and God spoke to him that he would be alright. God showed him that he had been walking in unforgiveness in his life and that is why he was experiencing hell. But, God had mercy and when he awoke he was fine with no cuts and bruises from accident. He is a walking miracle today. Let's all believe for the miracle of transformation to be filled with new wine.
